Anniversary workshop

1 - 2 JUNE 2026

JINONICE CAMPUS

Centre for Digital Humanities Integration

Center for Digital Humanities Integration (C4DHI) is a research centre working within the Institute of International Studies at the Faculty of Social Sciences, Charles University. C4DHI pursues the mission of ushering current realities of indispensability of the “digital” dimension of research and education in area studies and modern history at IMS. Through close collaboration with partner research institutions specialized in the technological aspects of DH applications, it seeds and nurtures transdisciplinary methodological integration in four key pillar activities:

1. internal DH skill and capacity building
2. external DH expertise influx and networking
3. direct DH application in research and publishing
4. integration of DH into the study curriculum.
